These guidelines describe the visual and verbal elements that represent ECO Canada's corporate identity.

Introduction

From job creation and wage funding to training and labour market research, we champion the end-to-end career of environmental professionals.

At ECO Canada, we act as the steward for the Canadian environmental workforce across all industries. From job creation and wage funding, to training and labour market research, we champion the end-to-end career of all environmental professionals. We aim to promote and drive responsible, sustainable economic growth, while also ensuring that environmental best practices remain a priority. We challenge the status quo by existing outside the typical activist mentality.

We work alongside government, policy makers, academia, students, employers, professionals, industry, and international audiences to ensure we support Canada as a global leader in innovative workforce solutions and job creation. We remain the go-to source in the environmental labour market; our research provides unmatched statistics and analysis on the economic and labour trends that identify workforce gaps within industry. Visit us online at www.eco.ca.

OUR MISSION

To ensure an adequate supply of people with the demonstrated skills and knowledge required to meet the environmental human resource needs of the public and private sectors.

OUR VISION

To build the world's leading environmental workforce.

**An introduction
to our logo
and how it is
presented across
various mediums
and applications.**

ECO Canada Logo

Our Logo is the key building block of our identity, the primary visual element that identifies us. The signature is a combination of the Canadian leaf symbol and our company name – they have a fixed relationship that should never be changed in any way.

THE FULL LOGOTYPE

Our corporate logo consists of two elements; a Canadian leaf integrated into our business name. This logo acts as a standalone identifier and should not be altered or separated. The leaf is occasionally used on its own as a stylistic element but the logotype is not to be used as a standalone piece.

MAIN LOGO

RECOMMENDED FORMATS:

.eps | .ai | .png | .jpg | .tiff

ATTENTION:

The logo cannot be altered without prior permission of ECO Canada. Use of any stylized, animated, hand drawn or other versions of an unofficial logo is not permitted. This undermines the logo system and brand consistency. Please consult with ECO Canada Inc. Trademark Licensing if you have any questions or need further help.

Logo Construction & Clearspace

It is important to keep corporate marks clear of any other graphic elements. To regulate this, an exclusion zone has been established around the corporate mark. This exclusion zone indicates the closest any other graphic element or message can be positioned in relation to the mark of the symbol itself and our company name – they have a fixed relationship that should never be changed in any way.

LOGO DIMENSIONS

CLEARSPACE

DEFINITION:

Whenever you use the logo, it should be surrounded with clear space to ensure its visibility and impact. No graphic elements of any kind should invade this zone.

Corporate Fonts and Structure

Typography plays an important role in communicating an overall tone and quality. Careful use of typography reinforces our personality and ensures clarity and harmony in all of ECO Canada’s communications. We have selected PT Serif and Open Sans, which helps inject energy and enthusiasm into the entire ECO Canada communication strategy.

Primary Font
Open Sans

PT Serif sets new standards in terms of its form and number of variants. It is the quintessential serif font, timeless and neutral, and can be used for all types of communication.

OPEN SANS

Bold

i " ¶ ¢ [] | { } ≠ ¿ ‘
« » € ® † Ω ¨ / ø π • ± ‘
æ œ @ Δ ° ª © ¢ ¤ , å ¥ ≈ ¸
√ ~ μ ∞ ... - ≤ < > ≥ ~ > < ◇

Fallback Fonts

Typography fallbacks are only use when the primary and secondary fonts are not present. These fonts a globally used and should be available within any operating system the user will be creating with. Such fonts are standard globally and recognized by individuals across multiple platforms including desktops and mobile devices.

Primary Fallback Font

An overview of our corporate image system

Corporate Image System

Corporate Images are responsible for transferring the values of ECO Canada to our customers or our potential customers. It is a composite psychological impression that continually changes with the firm's circumstances, media coverage, performance, announcements, etc. ECO Canada uses various corporate advertising techniques to enhance their public image in order to improve their desirability as a leader in their field.

EXAMPLES:

- Environmental Backgrounds
- Corporate/Professional Foreground
- High Saturation
- Organic Matter
- Real Images (No Graphics)
